Amazing Entryways

Leave a lasting first impression with a foyer filled with memorable furniture and decor.

by ALYSSA GAUTIERI

Make the floor the center of attention.

When designing this family-friendly entryway, Kristin Harrison, founder and principal designer of Bungalow10 Interiors, swapped out honed marble for more durable porcelain tiles. "Since the entryway is limited in size, I love incorporating surprise elements," like striking checkerboard floors that can hold up to foot traffic. Custom storage cabinets, an oversize flush mount and a large wicker bin with green branches bring the space together.
